

PRIME CORE (PRMC)

HERO

You're not early.
You're just seeing it late.

Prime Core
The core of decision advantage in crypto.

An AI system that identifies, evaluates, and prioritizes opportunities
— before they become obvious.

Know what to do.
Know when to act.
Know what to ignore.

REALITY

Most people don't lack opportunity.
They lack timing.

By the time most users discover an opportunity,
the majority of value has already been captured.

They enter too late.
They focus on the wrong opportunities.
They spend time on actions that don't matter.

The problem isn't access to information.
It's the lack of a system that turns information into action.

WHAT PRIME CORE DOES

Prime Core turns fragmented market data into a structured process:

It continuously analyzes opportunities across tokens, airdrops, and on-chain activity.

Not just data.
Actionable intelligence designed for execution.

CORE FEATURES

Early Listing Detection

Identify newly listed tokens at the earliest stage:

- ▶ Liquidity inflows
- ▶ Initial trading volume
- ▶ Wallet activity
- ▶ Early momentum

Capture movement before it becomes widely recognized.

Airdrop Intelligence

Turn complex opportunities into clear execution:

- ▶ Requirements
- ▶ Tasks
- ▶ Capital required
- ▶ Time commitment
- ▶ Reward structure

Remove guesswork.
Focus on what matters.

INTELLIGENCE LAYER

Expected Value Score

Each opportunity is evaluated based on:

- ▶ Capital efficiency
- ▶ Time efficiency
- ▶ Complexity
- ▶ Competition level
- ▶ Upside potential

Combined into a single:

Expected Value Score

So you know exactly where to focus.

Step-by-Step Execution

Every opportunity is broken down into:

- ▶ Clear actions
- ▶ Execution order
- ▶ Key checkpoints

No confusion. No hesitation.

Risk Filtering

Prime Core filters out:

- ▶ Low-value opportunities
- ▶ Overcrowded setups
- ▶ Inefficient strategies
- ▶ High-risk participation

Saving time and reducing unnecessary exposure.

PERSONAL STRATEGY ENGINE

Every user operates differently.

Prime Core adapts based on:

- ▶ Capital
- ▶ Time
- ▶ Wallet setup
- ▶ Experience
- ▶ Risk tolerance

Delivering:

A strategy tailored to your situation.

Not a dashboard.

A decision engine.

WHY THIS MATTERS NOW

The market is expanding rapidly:

- ▶ More tokens
- ▶ More campaigns
- ▶ More incentives
- ▶ More information

Opportunities are increasing.

Clarity is not.

Protocols distribute value through airdrops and incentives, but most users struggle to:

From:

- Manual discovery
 - Intelligent systems
 - Guessing
 - Structured execution

The advantage is no longer access.
It is:

speed, clarity, and execution.

POSITIONING

Prime Core is not just another tool.

It is the intelligence layer between data and action.

TOKEN UTILITY — PRMC

PRMC provides access to Prime Core.

Holding PRMC enables:

- ▶ AI-driven analytics
- ▶ Expected value scoring
- ▶ Early opportunity signals
- ▶ Personalized strategies
- ▶ Advanced prioritization
- ▶ Full system access

PRMC is a Utility Token.

This is access to better decisions.

ANGEL ROUND

Early participants gain structural advantage.

Phase 1

Lowest entry price
Priority access

Phase 2

Price increase
Reduced priority

Phase 3

Pre-public access
Earlier entry leads

WHO IT'S FOR

- ▶ Those who miss opportunities
- ▶ Those seeking clarity
- ▶ Those who enter too late
- ▶ Those who value efficiency
- ▶ Those overwhelmed by information

CLOSING

Most people don't fail because they make bad decisions.
They fail because they are too late.

Too late to discover
Too late to decide
Too late to act

By the time they act, the opportunity is already gone.

Prime Core removes that delay.

- ▶ Detection
- ▶ Evaluation
- ▶ Prioritization
- ▶ Execution
- ▶ Risk filtering
- ▶ Personalization

All in one system.

This is how advantage is built.

DISCLAIMER

Prime Core is an information and analytics platform.
It does not provide investment advice or guarantee outcomes.

Digital assets involve risk and may lose value.
Users are responsible for their own decisions.

PRMC TOKENOMICS

(TOTAL SUPPLY: 1 BILLION)

Total Supply

1,000,000,000 PRMC

Fixed Supply (No Inflationary Minting).

ALLOCATION

Angel / Presale: 20% (150M PRMC)

Initial funding and early user acquisition

→ Drives project launch and early traction

Liquidity (LP): 10% (100M PRMC)

Provides tradable liquidity on exchanges

→ Initial liquidity with gradual additions

→ Liquidity locked for 1 year

→ Ensures market stability and trust

User Growth (Airdrops / Rewards / Incentives): 25% (250M PRMC)

Dedicated to expanding the user base

Airdrops

User incentives

Campaign rewards

Community engagement

→ Core driver of adoption

Development: 20% (200M PRMC)

Ongoing product and infrastructure development

- ▶ AI systems
- ▶ Data analytics
- ▶ Platform improvements

→ Ensures long-term product value

Team: 10% (100M PRMC)

Core contributors and builders

- Long-term vesting applied
- Aligns team with project success

Marketing: 10% (100M PRMC)

User acquisition and brand expansion

- ▶ Influencers / KOLs
- ▶ Advertising
- ▶ Community growth

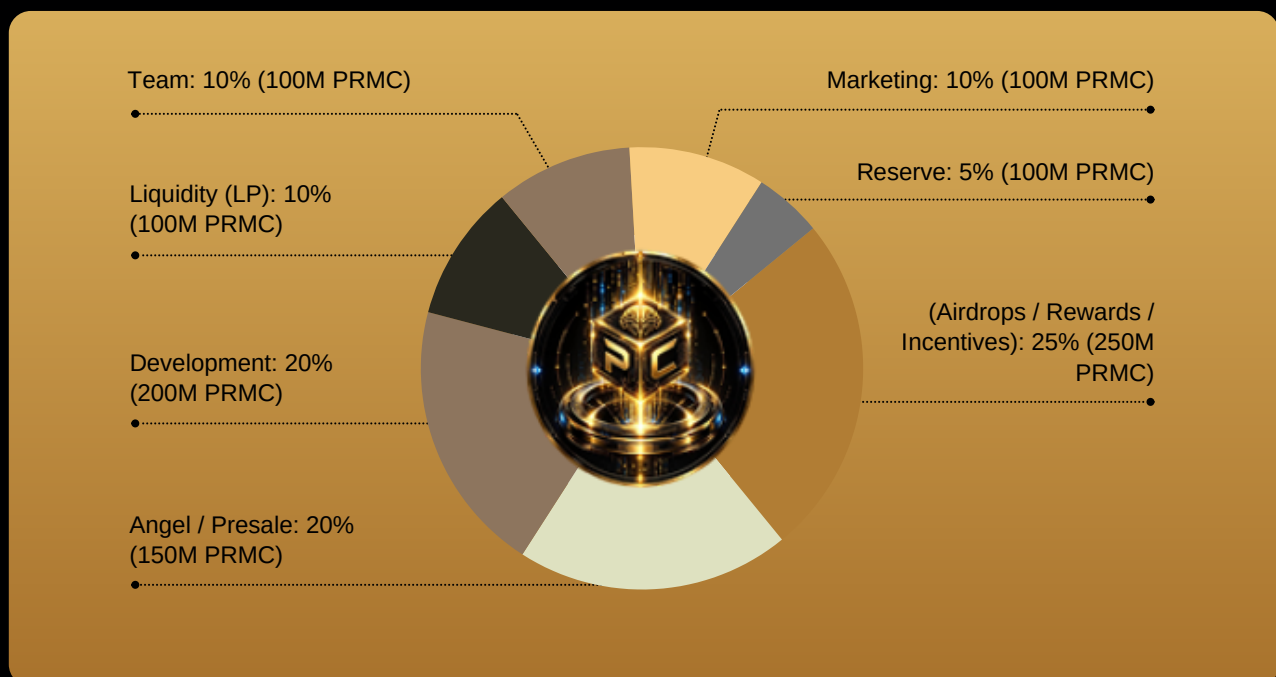

→ Accelerates adoption

Reserve: 5% (100M PRMC)

Strategic flexibility and future expansion

- ▶ Market adaptation
- ▶ New initiatives
- ▶ Risk management

→ Ensures sustainability

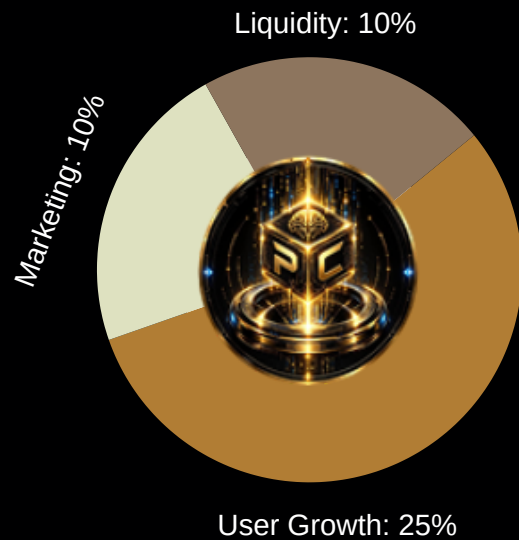

Vesting: 15% TGE, 17% monthly for 5 months.

KEY DESIGN PRINCIPLE

A significant portion is allocated externally:

- ▶ User Growth: 25%
- ▶ Marketing: 10%
- ▶ Liquidity: 10%

→ 45% dedicated to ecosystem expansion

VALUE MECHANISM

- ▶ PRMC is required to access Prime Core
- ▶ As users increase → demand increases
- ▶ Supply is partially locked

→ Demand-driven value growth

CONCLUSION

PRMC is not designed to be sold

→ It is designed to be used

ONE LINE

More users = More demand = Higher value

TOKEN SALE DETAILS

Angel Price: \$0.001

Listing Price (Expected): \$0.005

VESTING STRUCTURE

- ▶ 15% unlocked at TGE (Token Generation Event)
- ▶ Remaining tokens released monthly over 5 months (~17% per month)

ANGEL ROUND

Total Raise: \$500,000

Angel round: \$0.001

Presale: \$0.005 (target ~5x from angel)

4-stage presale over ~4 months

Fundraising target: around \$500,000
